

ACT 89 AUXILIARY MATH SERVICES

Auxiliary math services are funded through Pennsylvania ACT 89 and allocated by the Westmoreland County Intermediate (IU). The IU contracts with Catapult Learning to provide a certified teacher to the school for auxiliary instruction time. Math services may include, but are not limited to, reinforcement, skill practice, problem solving, remediation, etc. These services are coordinated with the classroom teacher based on the student's classroom performance.

Written parental consent is necessary for those students who are recommended by the classroom teacher or principal to be seen on a weekly basis throughout the school year. An initial assessment will be done to determine a student's skill levels. Progress Assessment Reports will be distributed along with school report cards.

The Catapult Math Teacher is available for conferences with parents and school faculty.
